ABOUT DOGSTAR

Here in 2023, Dogstar epitomizes the quintessential Southern California storytelling rock band they’ve always been in their hearts, making deeply resonant music that comes from *Somewhere Between the Power Lines and Palm Trees* – the name of their new album which arrived October 6, 2023, via their label Dillon Street Records (distributed through ADA). Comprised of guitarist/vocalist Bret Domrose, drummer Robert Mailhouse, and bassist Keanu Reeves, Dogstar was born in 1991 as a band of friends who came together in a garage in Southern California and simply dreamed of playing music together and making a little noise. Now, all these years later, Domrose, Mailhouse, and Reeves took some time at the tail end of a historic lockdown to create this collection of songs that fully encompasses who they are as artists today. The happily reunited rock trio’s official return came in May 2023 – more than 20 years since their last performance together – with their first public performance at the BottleRock Napa Valley music festival with a set that sparked fan and critical praise alike, including the live debut of their lead single “Everything Turns Around,” which was officially released July 19. In August, Dogstar embarked on their 35+ city *Somewhere Between the Power Lines and Palm Trees* Tour, which continues across North America through December.
